--- FUNCTION. MONokine with inflammatory and chemokinetic properties.
--- SUBDAIT: Homodiner (By similarity).
---- SUBCELLULAR LOCATION: Secreted.
---- SIMILARITY: Belongs to the intercrine beta (chemokine CC) family.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               SMALL INDUCIBLE CYTOKINE A4.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   -!- FUNCTION: Responsible for the release of ribosomes from messenger RNA at the termination of protein blosynthesis. May increase the efficiency of translation by recycling ribosomes from one round of translation to another (By similarity).
-!- SUBCELLULAR LOCATION: Cytoplasmic (By similarity).
-!- SIMILARITY: Belongs to the RRF family.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Mus_musculus (Mouse).
